Visitors Welcome

For the past ten years I have asked the tourist not to overlook Vancouver Island for outstanding beauty. I have now extended this publication to cover the whole of Western Canada and have personally visited all the places listed. I invite you to see Canada's wonderland.

GEORGE E. WILLIS, OWNER

For your convenience we have one of the most attractive and up-to-date Travel Bureaus in Canada. You are invited to call for information or make hotel or transportation reservations. Open April 15 to October 15.

With this travel rack I distribute folders and maps of Western Canada to Hotels, Auto Courts and Travel Bureaus in the United States, inviting tourists to spend their vacation in Western Canada.

Victoria

"City of Sunshine and Flowers"

Victoria is the capital of British Columbia with a population of about 91,000 with adjoining municipalities which is situated on the southerly end of Vancouver Island.

It has an average summer temperature of 62 degrees and in winter 42 degrees, with an annual rainfall of 27 inches.

The city is surrounded on the south and east by a beautiful marine view, islands can be seen for many miles, the Olympics and Mount Baker in the background.

Here men on less than \$4000 a year look prosperous and content; they have time to live and enjoy life without wearing a worried look. Many people come here from all parts of the world to invest their money and settle down to real living.

There are 140 miles of pavement and 65 miles of tree-shaded boulevards.

VICTORIA, B. C.

VICTORIA'S SOCIAL CENTRE

The handsome pile of the large and luxurious Empress Hotel faces the inner harbour, giving a stately welcome to the boats as they arrive.

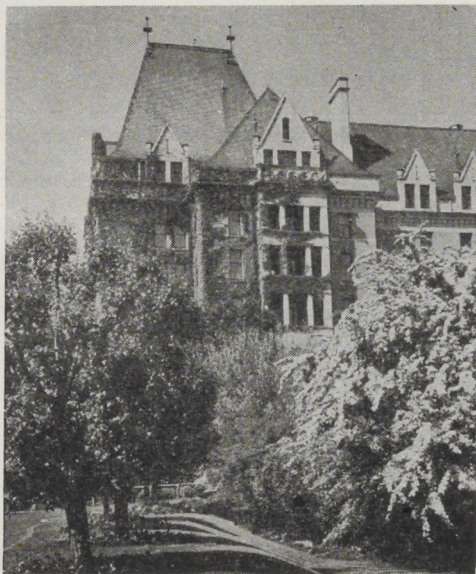

With five hundred and seventy rooms, it is built in a style reminiscent of manorial England, its windows are embrasured; its walls ivy covered. The hotel stands in five acres of formal covered grounds.

On the blue brocaded walls of the stately dining-room hangs an arresting and lovely group of paintings.

These are portraits of the wives of the Governor Generals of Canada during the last hundred years—symbols of the historic pageantry of a century.

Tea in the Empress Hotel Lounge each afternoon has an English country house atmosphere. An orchestra plays chamber or popular music.

Colorful herbaceous borders, flowering shrubs and five hundred varieties of roses blossom in the Empress gardens.

The conservatory — rendezvous for beauty and flower lovers—is a feast of color every day of the year. In their season are always special showings of chrysanthemums and calceolarias.

THE CRYSTAL GARDEN . . .

Across the Empress Rose Gardens—the Crystal Garden.

The building houses a swimming pool one hundred and fifty feet by forty feet, surrounded by bright blooming tropical shrubs. There is a badminton court, a dance floor and a hydrotherapeutic department.

Behind the building are the popular and always well-attended bowling greens.

VANCOUVER

CANADA'S EVERGREEN PLAYGROUND"

There are many attractive places to visit around Vancouver—a visit to Canada's most popular Stanley Park, where you will see the beautiful Sunken Gardens, Totem Poles and Indian Carvings, famous Prospect Point, Queen Victoria, Robert Burns and Pauline Johnston monuments, Lumberman's Arch, Brockton Point Lighthouse, and many interesting trails and drives.

You will enjoy sitting or bathing at English Bay or Second Beach, where the children can enjoy the playground equipped with the most modern appliances.

There are several street car rides out of Vancouver; to the seaside, and leading through lovely residential sections of the city, then the bus over the Lions Gate Bridge along the shores of West Vancouver overlooking Howe Sound.

Photo by Leonard Frank.

VANCOUVER CITY HALL

One of the most interesting trips in British Columbia is a drive over to North Vancouver. Take the ferry from the foot of Columbia Street, Vancouver, and you will enjoy a scenic trip over the Burrard Inlet—here you can relax, watch the busy shipping and gaze at the snow-capped mountains.

On arriving in North Vancouver you may take a bus to Deep Cove where there is a nice beach, good bathing and boating.

The street car goes to Lynn Valley where the famous Canyon and Suspension Bridge will be found. For hikers there are trips unsurpassable the world over, to Dam, Crown and Dome Mountains.

OKANAGAN VALLEY

A trip through the world-famous Okanagan Valley offers to the traveller what is acknowledged to be the most diversified scenic wonder of British Columbia. This portion of Southern and Central British Columbia is rich in the romantic history of its pioneering days. Over the Okanagan Trail through this picturesque valley as early as 1830 travelled the Fur Brigades, Traders and Miners.

The Okanagan Valley today offers to the traveller the very best in modern Hotels and up-to-date Tourist camps, fishing resorts and all the comforts of modern travel.

HERE IS THE WORLD FAMOUS "APPLE VALLEY"

Good highways lead through rich apple growing and farming areas, well settled communities and modern cities. The areas adjoining and adjacent to this wonderland abound in fish and game of all descriptions.

Whenever he may go, or whatever sport or recreation he may seek, the tourist will find added pleasure and thrill in the scenic splendour of the beautiful lakes and valleys, the wooded hills and the snow-capped mountain peaks of the Okanagan.

Wherever you go in the Okanagan, anywhere from Oliver to Vernon—

The climate is unexcelled in Canada and has averaged 2,000 hours of sunshine annually. Favourable weather conditions are assured from the early spring to the glorious Indian Summer of October and November.

KOOTENAYS

Nelson is the gateway to the scenic wonderland of the Kootenay, Slocan and Arrow Lakes region of Southern British Columbia. It is on the Southern Trans-Canada Highway, easily accessible from Prairie points, being one day's drive from many districts in Southern Alberta.

Nelson is 42 miles north of the International Boundary at Nelway and invitingly close to the Inland Empire, being four hours by car to or from Spokane, Washington.

The grandest lake and mountain scenery in the British Columbia Rockies.

The largest, gamest Rainbow trout in North America are caught in Kootenay Lake—up to 25 and 30 pounds.

Ask for particulars of regulations covering non-resident license fees for fishing and hunting. We will be glad to give you every assistance and help you plan your vacation in this beautiful, natural holiday land.

For full information as to hotels, cottages, camps, boat hire, good lake and stream fishing spots, points of interest and how to get there,

BANFF . . *Outdoor Paradise*

Banff, the headquarters of the Rocky Mountain National Park, is noted throughout the world for the lovely scenery which surrounds it. This is the place for both summer and winter vacationists.

People who seek the healthful benefits of Banff waters usually head straight for the two government-operated natural hot sulphur springs, with attendants, bathing pools and facilities.

LAKE LOUISE

In all directions there are roads which reach the principal scenic highlights of the Parks and there are innumerable bridle paths to make the less frequent beauty spots more pleasant.

A few miles east of the Great Divide, nestled among the circle of snow-capped peaks, is the beautiful Lake Louise. This Lake is world-famed as one of nature's most outstanding scenic gems.

This natural wonderland is situated 3 miles from Lake Louise Depot on the mail line of the Canadian Pacific Railway, and is now reached by the new Trans-Canada Highway.

You could not pick a better or more enjoyable place to spend your vacation than Lake Louise. This is what one might call outdoor paradise. The wild game is protected and so unafraid, the crisp, invigorating mountain air, the cool glacial streams, the wild game, the myriads of wild flowers in valley and on mountain slope make it a place which you will always want to go back to once you have visited it.

Calgary, Alberta

Jasper National Park

Showplace of the Canadian Rockies

... 4,200 square miles of outstanding beauty on the main line of the Canadian National Railways.

Jasper Park Lodge, on beautiful Lac Beauvert, combines luxury with simplicity. It consists of a large main building, with bungalows radiating in fan formation along paved walks that are attractively landscaped. The bungalows,

which vary in size from one suite to sixteen rooms, are complete in every detail. From the Lodge stretch wide, velvety lawns, flower beds and rock garden, and in every direction tower mountain peaks.

Golfing: The championship course at Jasper Park Lodge is one of the finest on the continent. Over it each year is played the Totem Pole tournament which attracts golfers from all parts of the world.

Fishing: Jasper National Park is an angler's paradise, with a good supply of game fish—Eastern Brook,

Dolly Varden and Rainbow—in the waters of the Maligne Lake and Tonquin Valley regions, Jacques Lake and others too numerous to mention.

Motoring: Good roads provide magic and beauty at every turn. In addition to the famed Columbia Icefield Highway drive, there are numerous attractive, shorter trips—to Mount Edith Cavell, Punch Bowl Falls, Miette Hot Springs and other beauty spots.

Trail Riding - Mountain Climbing - Boating - Tennis

Swimming in a Heated Pool - Hiking or . . .

Just Complete Rest and Relaxation.

JASPER NATIONAL PARK IS INDEED A TRUE PARADISE FOR THE VACATIONIST.

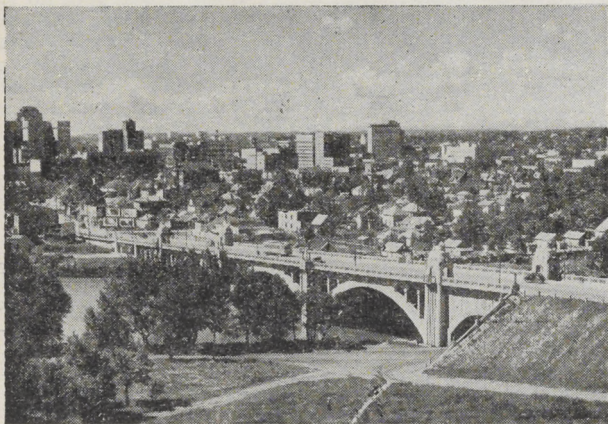

MINAKI LODGE

Break your eastward journey with a visit to Minaki Lodge, in the Lake of the Woods region. Just 115 miles east of Winnipeg on the main line of the Canadian National Railways, it is similar in construction to Jasper Park Lodge, with main building and bungalows. At Minaki Lodge is an excellent nine-hole golf course, splendid fishing in the adjacent lakes and rivers, yachting, boating, surf boat riding, swimming, tennis and a protected wading pool for the children.

Plan your 1946 vacation so you can visit both of these beautiful holiday resorts—there is good train service from the west coast and from the east.

THE CITY OF CALGARY

The City of Calgary in a comparatively few years has grown from a Mounted Police Fort, built in 1875 by the Royal North-West Mounted Police at the junction of the Bow and Elbow Rivers, into a modern city with a population of 88,000 people. It is now a most important business centre and one of the leading cities in Western Canada, and is served by two transcontinental railways, i.e., Canadian Pacific and Canadian National. Calgary is connected with the entire continent by railway, airway and highway transportation facilities.

SOME PLACES TO VISIT IN CALGARY

Memorial Park—12th Avenue and 2nd Street West. Beautiful gardens, flowers, hedges, trees, etc. Cenotaph, exceptionally fine Equestrian Monument—Public Library.

The Calgary Dinosaur Park and Zoo—is located on St. George's Island at Twelfth Street East and has a great variety of wild animals and birds of all kinds. For many however, the greatest attraction in the Park is found in twenty life-size models of ancient life which roamed the earth more than sixty million years ago. A visitor can see the life-like "Thunder Lizard", a monster 75 feet in length and weighing some 40 tons. Other models of duck-bill dinosaurs and heavily-armoured types reveal a fascinating chapter of animal life as it existed in Alberta before this continent took its present shape.

This Park is open every day in the year without charge. Adjoining the zoo there are playgrounds for children and picnic grounds.

Bowness Park—Where boating, swimming (with wading pool), dancing, etc. are provided, is located about eight miles west of the City. The paved highway leading to the Park parallels the Bow River most of the way and it is a very pleasant motor drive.

Municipal Golf Links are open to visitors and the fees are only 35 cents for eighteen holes play, or for the entire day. Situated at the north end of 26th Street, they are easily reached either by motor or street car. From the Golf Club House there is a splendid view of the city and also of the mountains.

EATON'S COVERS CANADA

EATON'S, largest mercantile institution in the British Empire, owns and operates retail stores in a vast chain stretching right across Canada.

In its stores, factories, mail order plants, warehouses, order offices and buying offices, EATON'S employs over 35,000 people. So it is a vital factor in the everyday life of most Canadians . . . a household "buy word" in every corner of the Dominion.

To visitors from the United States it comes as a pleasant surprise to find in Toronto, Montreal and Winnipeg huge EATON stores and mail order plants, excelled by few anywhere in the world for size and by none for the efficient service they offer the shopping public.

In Western Canada EATON'S now has fourteen stores . . . at Winnipeg, Port Arthur, Brandon, Dauphin, Saskatoon, Regina, Moose Jaw, Medicine Hat, Red Deer, Calgary, Edmonton, Lethbridge, Prince Albert and Vancouver.

EATON'S "covers" the country as thoroughly as it does the towns. Twice a year EATON catalogues are mailed from Winnipeg and reach every part of the west. The goods offered for sale through the catalogue, like the merchandise on sale in the EATON stores, is backed by the well-known EATON guarantee:

**Satisfaction Guaranteed or
Your Money Refunded**

KENORA - ONTARIO

Seattle, Washington

Seattle is located on Puget Sound between the Olympic Mountains on the west and the Cascade Range on the east. The city spreads over 68.5 square miles and contains almost 600,000 people in its metropolitan area.

There are two fresh water lakes within the city, Lake Union and Green Lake, and a third, 26-mile long Lake Washington, forms the eastern boundary. Seattle has 193 miles of waterfront.

Seattle's climate is mild and comfortable and never in history has the city had a temperature of more than 100 or of zero. The average summer temperature is 63 degrees, winters average 41 degrees. The average rainfall is 34 in.

Blessed by nature with an enormous wealth of resources in timber, fish, minerals, horticultural and agricultural advantages, water power, fine natural harbour, and location on a world trade route, Seattle is the financial, commercial, industrial, shipping, transportation and distributing center of the Pacific Northwest.

Volunteer Park and Seattle Art Museum, 430 feet above sea level, affords a fine city and marine view.

The University of Washington, with an enrollment of approximately 12,000 students, and a campus of 582 acres, bordering on Lake Washington and the Canal.

Lake Washington Floating Bridge. This gigantic bridge of concrete is the largest floating structure in the world, and is 6,560 feet long, spans Lake Washington from Seattle to Mercer Island.

Woodland Park and Green Lake. Zoological gardens contain 1,010 animals and birds. Elephants, kangaroos and monkey island compete as favorite attractions. Excellent facilities for picnics, with tennis courts, baseball diamonds, childrens' playgrounds. Boats and swimming in Green Lake.

PORTLAND, Oregon

PORTLAND—Oregon's major market—is one of the Pacific Coast's most important industrial centres. Exceedingly low power rates have caused it to become a centre of industry. The broad Willamette River, flowing through the city has made it the west coast's most important fresh water port. Vast shipments of wool, lumber, fruit and grain leave its harbour regularly. Portland is one of the greatest furniture centres west of Grand Rapids and among the other products for which it is famed are woolen blankets, swim suits and frozen fruit. Its scores of commercial nurseries and greenhouses ship bulbs and plants to almost every part of the world. In its bustling business section are smart modern shops and great department stores. The City of Roses is truly a city of business and industry, too.

Portland ranks high in home ownership and these homes are lovely ones. Roses in profusion fill almost every garden of both mansion and cottage. Portlanders are justly proud of the cultural achievements of their city. Open air symphony concerts are held each summer in the great Multnomah Stadium. The youngsters of the city have formed

PORTLAND, OREGON

the nation's foremost junior symphony orchestra under the able baton of Jacques GersHKovitch. Three colleges lie within its boundaries—Reed College, Portland University and Albany College. And as a medical centre, Portland is known as the Rochester of the West. The University of Oregon Medical School and clinics are nationally famous. It is indeed truthfully said, "There's lots to do and lots to see in Portland!"

Forty-two miles east of Portland on the Columbia River is famed Bonneville Dam. Here you will see salmon ladders (stairways for fish); the world's highest single lift ship lock; the great lake and spectacular spillway where man has harnessed the mighty Columbia's tremendous power. Bonneville Dam's ultimate capacity of 518,000 kilowatts gives the Columbia Empire a vast reservoir of power for a new era of industrial development. Attention has already been focused on electrochemical and electrometallurgical industries in which power is a substantial item in production costs. Columbia River channel improvements now in progress will create a deep water channel for ocean traffic through Bonneville Lock to The Dalles, 200 miles inland from the sea. A complete view of the gigantic power plant is available from vantage points on the highway.

SPOKANE, WASHINGTON

Whether it be summer or winter, Spokane is an alluring Holiday City. Here you'll find a delightful summer climate with nature's own "air conditioning system" that bathes the City and its environs with mountain-borne breezes electric with energy. Here, also, you'll discover entrancing autumns and brilliant winter days that give added zest to out-door sports, no matter how strenuous.

- Spokane is alive with interesting things to see—entertaining things to do—a veritable mecca of rich and varied interests for people of all ages. Beautiful and extensive parks, superbly equipped playgrounds, museums, libraries, educational institutions, cathedrals; bright lights, modern theatres, night spots, smart hotels with charm and atmosphere, toe-tingling orchestras, smart restaurants and shops, sports arenas—all welcome the visitor and well reward the visit.

Enjoy a Visit at . . .

SAN FRANCISCO, CALIFORNIA

San Francisco is located on, and comprises the entire northern portion of the peninsula that forms the western wall of San Francisco Bay. The City is built on seven hills; foremost among which is "Nob Hill", noted for its homes of early California millionaires. The metropolitan area covers a territory of 44.82 square miles and has a population of 800,000 people.

The climate of San Francisco is mild; a freeze or snowstorm being unknown to the area. Air Conditioning is an unnecessary factor in the city, as the temperature varies from 50.3 to 62.6 degrees the year round. The average rainfall is 22.2 inches.

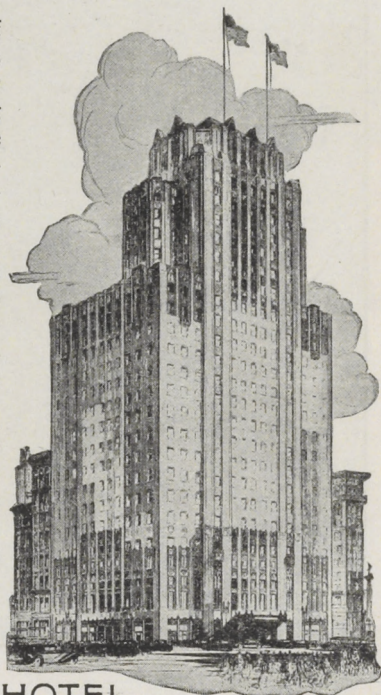

San Francisco is known as the Wall Street of the West and has one of the world's greatest harbors. It is an import and export center and noted for its fishery and cannery industries.

Golden Gate Park and Fleishacker Zoo are

unique recreational centers for both residents and visitors to the city.

Art Center—The de Young Museum in Golden Gate Park, the California Palace of the Legion of Honor in Lincoln Park, and many privately owned art galleries are a source of joy for art lovers from all over the world.

Bridges—Golden Gate Bridge, suspended from two great towers across the entrance to San Francisco Bay, has become a symbol of "home" to the many seafarers of today. The Bay Bridge, connecting San Francisco with the East Bay area, is 4.4 miles in length. Trains, buses trucks and automobiles stream steadily across the bay, with only one midway stop, Yerba Buena (good herb), which is the station for Treasure Island, now a Naval Base, but formerly the locale of the San Francisco Exposition.

HOTEL

SIR FRANCIS
DRAKE

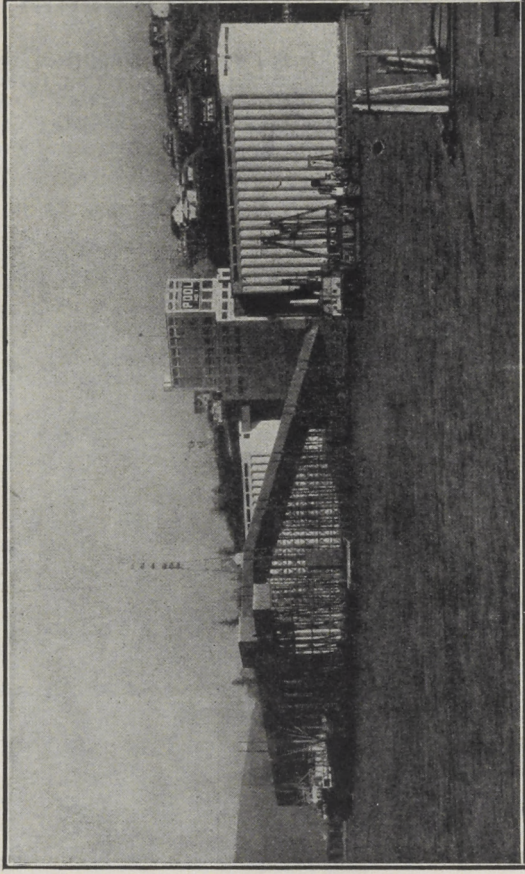

The Alberta Wheat Pool is a farmer co-operative which owns 436 country elevators and two large terminals (at Vancouver, B.C., and Port Arthur, Ontario). Elevator storage capacity is 40,684,750 bushels

Ownership of this immense elevator property rests exclusively with over fifty thousand farmer members.

Starting from scratch in 1925, the Alberta Wheat Pool elevator system is now the largest grain-handling organization in that province. Handlings of grain have reached close to 50,000,000 bushels in a single season.
